Summary

Software Engineer with 11 months of experience in React.js, JavaScript, CSS, Redux, and Ant Design. Currently working at Leadingdots Solutions Pvt. Ltd. with strong front-end development skills and a background in engineering. Quick learner, skilled in building scalable web applications and collaborating in agile teams.

EDUCATION

RD ENGINEERING COLLEGE GHAZIABAD

July 2015 – August 2019

*B.TECH (Mechanical Engineering)- **Percentage - 71.48***

GHAZIABAD, INDIA

EXPERIENCE

Leadingdots Solutions Pvt Ltd 

April 2024 –Present (Full-time)

Junior Software Engineer as a React Developer

Noida, Uttar Pradesh, India

- Implemented Redux Toolkit in over 10 projects, leading to a 25% reduction in boilerplate code and improving state management efficiency.
- Integrated over 20 RESTful APIs using Redux Thunk and Redux Toolkit, ensuring seamless data flow and synchronization between the front-end and back-end systems.
- Improved application load times by 30% through the implementation of performance optimization techniques such as memoization, code splitting, and lazy loading in React.
- Led a team of 5 developers in agile sprints, delivering high-quality features on time and reducing project completion time by 20% through effective collaboration and communication.

PROJECTS

Schedulize  | React.js, Ant Design, Redux Toolkit, RTK Query

July 2024

- Developed and maintained a leave management system. Integrated API calls for real-time data updates and improved application responsiveness. Duration: 5 Months

Liquor Management System (Positive)  | React.JS, Redux

April 2024

- Role: React Js Developer — Duration: 4 Months

PWN-Movies  | React.JS, Redux, TMDB API

January 2024

- Developed an OTT platform using React, delivering a seamless and immersive user experience.
- Implemented Redux Toolkit for efficient state management, ensuring application stability and scalability.
- Utilized Axios for seamless integration with the TMDB API, enriching the platform with a vast library of multimedia content.
- Incorporated various React libraries such as Dayjs, React Router DOM, React Icons, React Circular Progressbar, React Infinite Scroll, and React Lazy Load Image to optimize performance and enhance user interactivity.

Tic Tac Toe Project  | HTML5, CSS3, JavaScript.

October 2023

- Developed a classic Tic Tac Toe game to demonstrate proficiency in front-end web development and logic implementation. Interactive game board with X and O markers.

TECHNICAL SKILLS

Languages: Java, C, JavaScript, SQL,

Markup Language: HTML, CSS

Developer Tools: VS Code, IntelliJ Idea Ultimate

Technologies/Frameworks: Linux, GitHub, ReactJS, Bootstrap, Redux, NodeJS, ExpressJS, MongoDB, Git

CERTIFICATIONS

- Java - Crio.Do
- JavaScript - SCALER
- React.js/Redux - SCALER
- HTML - KG Coding
- CSS - KG Coding
